To Whom It May Concern:

This letter is to certify that Mrs. Rose Marie Mendez worked for my mother, Mary C. Tobias of Southfield, Michigan, Part time, on and off for a period of approximately 15 years. Rose served in the capacity of Home Health Aide, diver and companion. She did some light house cooking, but frequently took my mother out to a restaurant and would have dinner with her when my mother's health condition permitted and when Rose was on the shift which included dinnertime. More than once she accompanied my mother to Florida for a few weeks and stayed down there with her until my mother was ready to come back. The aforesaid services were satisfactory to my mother and Rose was one of my mother's favorite helpers out of a very large number of woman who served mostly eight hour shifts in mothers final years when I was managing an around-the-clock seven days a week staff. Mother became a widow in February of 1987. She died in July, 2001 at the age of 105 years. Rose was not working for mother at that time.

If you have any questions, please feel free to call me during office hours at my above business telephone number.

Very truly yours,

George W. Tobias

Reference for Rosie Mendez
7/10/08

I have discovered a wonderful woman, Rosie Mendez, who has been caring for the elderly for some 35 years. She is currently helping my mother who is 101 years old and a Holocaust survivor, who after surviving a building fire in April of this year (Hechtman II in West Bloomfield Michigan) just moved back to her own apartment in the neighboring building, Hecktman I.

This woman is a remarkable woman in every way. She is honest, dependable, always on time, kind, compassionate, highly skilled, smart, uses common sense in decision making and will do everything and anything from direct personal care to light housekeeping, companionship, grocery shopping, laundry, driving etc. She understands the subtleties of family life in caring for others. Rosie has also had a broad diversity of experience including caring for individuals with Alzheimer's disease and other disabilities.

Rosie communicates very effectively with the whole family, which always eases the challenges that so many of us face in caring for an elderly, disabled or ill person. She is a good planner, anticipates issues that arise and has three people who are available to back her up in case of a personal emergency. She is a family person herself and understands the family dynamics of others. Her personality alone makes it easy to love her. Her references are sterling and she has already made a huge difference in our quality of life and that of my mother.

I would recommend Rosie Mendez without reservation and would be delighted to answer any questions about how important she is to our family.

To Whom It May Concern:

I am pleased to offer myself as a personal reference for Rosie Mendez as a home caregiver. Rosie helped take care of my 93 year old mother during the last three months of her life, from December 2007 until March 2008. My mother was recovering from a leg injury and needed assistance when she returned home from the hospital.

Rosie worked nights and weekends; her responsibilities included helping with meals, dressing, medication, walking, etc. Even though it was only for three months, I felt that Rosie established a rapport with my mother and was very helpful to her. Rosie was very reliable and was very accessible if I needed to contact her. If I can be of further assistance, Please do not hesitate to contact me.

Very truly yours,

To Whom It May Concern:

It is a great pleasure for me to write a letter of recommendation for Ms. Rosie Mendez. I have known her for the past eight years and am very impressed with her nurturing qualities. She and her family took care of my twin grandchildren shortly after they were born. She provided a home for them and accepted them not only into her home but into her heart. She took care of them as though they were her own. When my dear mother was dying Rosie took care of her also and provided consistent, competent care.

I cannot think of a better place for her nephew to be then under Rosie's care. She is the kind of person who will make every effort to do what is necessary to help heal his psychological wounds. Additionally, she has already obtained the name of a competent therapist to help him with those issues which need to be addressed by a professional. Rosie has a large extended family which is also loving and kind. If anyone can provide a stable, loving home environment it is Rosie and the entire Mendez family.

I have no reservations in writing this character reference for Rosie. Her nephew is indeed fortunate to have this opportunity to live with Aunt Rosie. If anyone can help him turn his life around, she can.

To Whom It May Concern:

I have known Rosie Mendez for many years. She took care of my twin grandchildren when they were born and also took care of my step-father after his stroke. More recently Rosie looked after my mother during this time she was too ill to take care of herself. She monitored her medication, prepared meals, fed, showered and dressed my mother. At that time around the clock care was needed for my mother and Rosie made all of the arrangements. Rosie was very consistent in keeping nursing notes which helped me to understand exactly what was happening with mother. Most importantly, Rosie made my mother feel safe and that she was being taken care of.

Rosie was willing to do many things which didn't technically fall within her job description. For example, if she had to go to the pharmacy to pick up a prescription, she would. If a trip to the grocery store was necessary Rosie would do it on her way in to work. She is a compassionate, caring, kind, skilled caregiver; I never worried when she was with my mother. I know that she has cared for many elderly people over the years and has formed lasting relationships with them. She has also taken people into her home to care for them when there was nowhere else for them to go.

Rosie is honest and trustworthy. I recommend her highly for any position she seeks.

To Whom It May Concern

Rose Marie Mendez was the primary care taker for my friend for many years; she showed great compassion and love in response to the patient. She is reliable and efficient in her care giving. For example, many times she had to drive the patient to the Emergency room at night. She always stayed in the E.R. until the patient was released the following morning. She also took responsibilities of managing the household, cleaning and financial. In later years she was caregiver for my aunt.

I think you will be happy to have her in your home.
